Mar 19-30 - Spring Break

Apr 11 - Violeta Parent Montessori Evening

Mon, Feb 5: Snack & Laundry - Ojo

Remember: log-in to smile.amazon.com, click on "Violeta" & Amazon will donate to us!

"How much fuller and richer life would be if we saw the child in all his greatness, all his beauty, instead of focusing on all his little mistakes?...with this change in our hearts we will want to study [the child] in all his different phases, to study all his miracles... We must give this development, this miraculous force, the help it needs. It needs the warmth of the heart (!!!!!) and it needs understanding. Let us call this help Education."

~Dr. Montessori

Colors are all around Violeta! This fun game is with Color Box 2!

We work in paradise!

In our Violeta Montessori environment, children learn how to teach themselves how to acquire learning skills.

The theme of this year's AMI/USA Primary Refresher in AZ was "Living in Harmony with Children". The course included discussions around Grace & Courtesy, Spoken Language, Practical Life, Nature, Food, and Freedom and Limits. Most importantly the messages were positive and affirming: be strong and vulnerable and do better and better for our children.

Each day is a fresh start in paradise.

We joyfully dance in the sunshine!

I guide my learning and develop important learning skills alongside my peers!

"b-u-d", "BUD" is about to bloom at the top of this plant! I can reach it if I stand on the step stool.

Heavy, light; these baric tablets have different weights!!

The golden beads help me learn how to add numbers with my friends!
